About the Virtual Band and Orchestra Project

The Virtual Band and Orchestra Project was created out of necessity in the summer of 2020, when a group of musicians joined forces to ensure that beginning band students had access to high quality music instruction virtually, when traditional, in-person instruction was not possible due to the Covid-19 pandemic. The project has been well-received in schools across the United States and Canada, and our mission has expanded beyond the necessities of the pandemic to bring music to homeschoolers and school programs that could not otherwise support a full music program, whether due to their size or budget constraints. Led by expert educator Dr. Ginny Tutton, our instructors are not only talented, professional players, but also skilled pedagogues, many with degrees in music education and years of experience teaching beginners.
